To this day, Purple Rain is still my favorite movie and movie soundtrack. I actually don't think of it as a soundtrack when I listen to it, though. The album is great as an album by itself! I have also been a huge fan of the music that came along with one of Prince's other movies: Under the Cherry Moon. Unfortunately, I was not a big fan of Graffiti Bridge, but it was alright.... I've always wondered whatever happened to Tevin Campbell?
