Subject: Re: Are home theaters as good as movie theaters?

I guess so...The increasing costs of gas, movie tickets, food and drinks sold at the theater make home theater a good option to think of. Plus, think of the comfort and the privacy afforded by having your very own home theater...and with technology on the rise, the quality of home theaters is not below par...Maybe a little math on your family's movie theater expenses in a year or two and on the cost of home theaters would give some answers...
