Subject: three Pi speakers info Posted by Wayne Parham on Fri, 01 Apr 2011 04:03:19 GMT View Forum Message <> Reply to Message

f3 = 50Hzf10 = 30Hz

Add subs for extension and modal smoothing. I'm sure you saw this whitepaper already, but just in case:

High-Fidelity Uniform-Directivity LoudspeakersIt's a good short read that explains a lot of useful concepts used in the constant directivity cornerhorns, matched-directivity two ways, multisubs and flanking subs.
