Subject: Re: 4Pi metric adjustments Posted by Wayne Parham on Fri, 22 Apr 2011 13:04:14 GMT View Forum Message <> Reply to Message

Speakers website. Scroll down to the bottom of any page and you'll see the link.

Accuracy to the nearest available millimeter is all that's required. You can use 19mm wood stock in place of 3/4", for example. Even 18mm is fine.
