Hi Everyone, Come see some of our kits (built of course so you can hear them) at LASF. Full line, valve line stage preamp ( I may bring my reference remote controlled one too just for grins to show how you can customize them), a pair of KT88 mono blocks or two, a Poddwatt (stereo push-pull class A U/L EL 84 integrated amp), a budget kit (Alpha, pentode SE U/L 6GV8 stereo) and if I can pretty them up a little, a pair of prototype KT120 Class A PP U/L mono blocks (they have a really awesome sound ). We look forward to seeing all the good things everyone else is doing.
