Subject: Good wire article Posted by Adveser on Sat, 30 Apr 2011 04:26:58 GMT View Forum Message <> Reply to Message

I came across this today while installing 6-feet of 24g speaker /8ohm wire today, replacing 3-foot of 16g wire/8ohm. Despite those numbers, there is not enough resistance in the new wire to make a difference.

It has a ton of information and a possible scam being run by Monster Cable.
