Just finished watching a movie. with my system before I was always VERY frustrated with voices. Everything about my home theatre sounds better now. It is like watching movies on a whole new system and its only 1 speaker. I cannot imagine what it will be like with towers and 1pi surrounds. Very impressed.

My wife this whole time didn't understand why I wanted to build this speaker. She thought everything sounded good as it is. Well the story has changed now =P She is VERY satisfied with how the new speaker sounds and agrees that it just makes everything sound right.
