Thx for the plans Wayne.

Are there other woofers cheaper than the lab12 which could work in the pi12? IE: with lower power handling and spl, but eventually the same extension and low distortion? The goal of this project would be lower cost domestic applications.

What is your thought about using Selenium wpu1208 in 12pi?

WPU1208

Power handling 450W

Fs 46Hz

Vas 62l

Qts 0.35

Qes 0.36

BI 19.4

SPLdB1W/1m 95
