Wayne,

I am glad this was posted because I am thinking of swapping the horn in my JBL 3677 cabinet along with the CD to a B&C 250. Do you forsee any issues with this combo and the 3677 cabinet? I know CDY asked you this before in a post and you said to retain the JBL CD but isn't the B&C 250 a better CD overall?

Thanks for all your help!
