Subject: Stands for 2pi and 1Pi

I am going to be building some stands and was wondering if ay can give me dimensional ideas =)

Should the base and the Top be the same size as the speaker? Wouldn't you want to widen it out a bit?

Best material to attach speaker to stand with?

Does height matter?
I believe you don't want the tweeter above ear height yes?
Or is a shorter stand with a slight tilt more effective?

Thanks for any and all help,
Phil
