Subject: Pete's Home Theater Build Posted by petew on Mon, 27 Jun 2011 14:40:40 GMT View Forum Message <> Reply to Message

I'm in dire need of four surrounds. Is the 2 pi suitable for on-wall installation? Will they perform well at about 5' to 6' above the floor?

I'm also interested in building a trio of 4 pi for LCR duty. Will need to modify my screen to AT first, and start saving my nickles and dimes.

I'd appreciate any suggestions, and a set of plans.

Thanks in advance
