Subject: Re: Pi 2 towers with H290 - doable???? Posted by David Morehouse on Tue, 05 Jul 2011 12:56:18 GMT View Forum Message <> Reply to Message

The more I read the worse it gets. I am in the process of mending an alpha 10 with psd2002 and h290 horn, as Derro asked.

Now I will remove my delta 12lf from their seperate cabinets and build pi 3's. Wayne, can I get the plans for pi 3's?
