Thanks for the quick response Wayne! I'll swap them out sometime this week. I guess that's what I get for jumping the gun..

Another question.. I'm looking to build sub amps soon too, and I'd prefer to keep everything DIY. I was intrigued by the Selectronic ProFet sub amps that you're running. Did you do anything special to navigate through the French site or get them shipped to the US? I made my way to the checkout, and then I got a little confused.
