Just about everything is in place for it.And the stalking horse will be child pornography.You have all the media doing shows on child pornand Gen Hayden going in the back door during the hubbub.MB, you seem to like the books I recommend. The best bookI've read of late (outside of Lessig) is by Judith Levine.The title is "Harmful To Minors." It's widely carried inevery library in Wisconsin-- a bit surprising consideringthe subject matter. There's probably a copy near you.
