Subject: Re: Ear: Trainable or Not? Posted by Shane on Sun, 14 Aug 2011 04:57:16 GMT View Forum Message <> Reply to Message

I can match a note with my guitar when listening to a song, but if I tune it by "memory" I will always tune 1/2 step down on every string. That's where it sounds right to me, but check it against a tuner and I'm always flat.
