LAB 12 drivers arrived in excellent condition. Ready to pick up the boxes from the furniture maker next week.

Delivery on my goods from the US has been pushed back - again! Now it looks like an Oct delivery date. The wait is killing me.

Pretty scary flying into Phnom Penh yesterday from a meeting in Manila. We have had very heavy rains and the ENTIRE city is surrounded by miles of water. The city is on the verge of major flooding due to a very heavy monsoon season. Hoping for the best, preparing for the worst.
