Subject: The AudioFred Sony FrugalArrays - $100

I had lots of fun building these, but now it's time to shift them and make room for another project. The FrugalArrays are for sale for $100, cash and carry, from my house in Houston. They're six feet tall, so you'll need a SUV to carry them. Shipping is not an option. I'll have them set up so you can audition them before you buy, but the first person to pay me $100 (cash, check or PayPal) takes them.

Here's the link to a discussion that includes some measurements:
