Hi Everyone, I have a prototype of the wireless preamp mentioned in the earlier posts (passive version only) and will bring it. Also to get the juices flowing we (Oddwatt) are planning on giving away a number of things this year. Initial plans include an "Alpha" amp, "T" Shirts and what ever else we think might be cool. It is a definite that the Series I KT120s will be there, the Martin Logan ESLs about 90% for sure, new phono preamp with my modded Dual 701 TT and the ruby re-tipped by Sound Smith Dynavector 10X5. Lots of other stuff as well including the new version of the Poddwatt and "Retro" Oddblocks (I really love mine - all octal tubes).
