I was into CB radio big time back in high school, late 60's early 70's. Most of my friends that I have today are from CB radio. Most of them moved out of CB and in to ham radio in the mid / late 70's. I went into the military out of high school and did not have much interest in ham radio when I got out. But I am still friends with all my CB buddies to this day.
