Thank you for your suggestions Scott, I appreciate it. My nephew listens to a lot of rock music, especially indie and alternative rock bands. I'm assuming that would be the kind of music he'd be playing too. I think I'll also check with his parents to make sure I'm on the right track. As for being a cool uncle, that's nice of you to say. I just think it's good for kids to get involved with music, and I really hope he sticks with it.
