Subject: Re: Coupons - are they worth it? Posted by mixinlady on Tue, 27 Dec 2011 21:25:08 GMT View Forum Message <> Reply to Message

I think it depends what your household situation is. There are crazy coupon ladies who can walk away with \$500 worth of groceries for 10 cents...however, at the cost of a huge amount of their time. I think as long as the time involved to clip/manage said coupons doesn't outweigh the benefits one gets from using them, then they can be worth it.
