Subject: Mac Miller - seriously?

My son wants me to take him to see Mac Miller. I know nothing of him but I'm thinking from what I hear that I don't want to go see him. Anyone a fan? I think he might be a rapper? I seriously don't want to go but my son is begging. He is 16 (son) and his friends want to go to. No other parent will take them? Am I crazy for thinking I just might?
