I absolutely love most of the music that comes out of this label! Paramore, Fall Out Boy, Panic! At The Disco, Gym Class Heroes, Cobra Starship, even Cute Is What We Aimed For and Yellowcard. I've been a fan of the music they released over the years. Now their rising star is "Fun." They have this amazing song with Janelle Monae called "We Are Young" which I heard first on Glee then found out they were a FbR band so I started loving it more. Who else here loves the work FbR does?
