Subject: New Entertainment Center Posted by Nymeria on Wed, 04 Jan 2012 15:19:25 GMT View Forum Message <> Reply to Message

We just got a new entertainment center and it's so nice to have our components in a cabinet now (with glass doors) instead of sitting out. It's narrower than the old one, so we moved the front speakers closer together. I was afraid the imaging wouldn't be good, but actually it sounds better than it did, so it was a win-win.
