Subject: Re: horns for a small room Posted by Wayne Parham on Tue, 31 Jan 2012 03:11:38 GMT View Forum Message <> Reply to Message

spite of that, your layout is actually is pretty good for constant directivity cornerhorns. And while they are large speakers, being tucked back into corners, they seem to take up almost no floor space. I would probably move the couch back a little bit, so it is just behind where the forward axes cross.

High-Fidelity Uniform-Directivity Loudspeakers
