Hi Wayne,

These Cornscala's are essentially what I ended up with for one set of speakers I have. I had bought a pair of empty Cornwall boxes for \$50 and stuffed them with mostly extra parts I had around.

I'd never heard of this guy either. No idea if they are anywhere near technically correct, but I like how they sound. They are the left/right for my 5.0 setup. Don't need no stinkin' subwoofers with these babies! :^)
