gofar99 wrote on Thu, 23 February 2012 14:12Hi, Cool what is the sensitivity?

The Mark Audio Alpair 10 driver is advertised as an 87dB sensitivity driver. In my relatively small listening room (about the size of the rooms at the LSAF) it plays satisfyingly loud with a 3.5 watt 2A3 amp. Bob Brines has developed a similar MLTL enclosure for the Alpair 10 driver, and he suggests about 20-30w/ch for adequate headroom.
