Subject: Baffle wall Posted by dutchswan0311 on Tue, 28 Feb 2012 02:08:01 GMT View Forum Message <> Reply to Message

I have been doing research on baffle walls behind AT screens and how to build one. Many people are saying that a baffle wall is either an excellent idea or a terrible idea depending on the speakers used. Wayne; what do you recommend for the 4pi when they are used as the LCR mains behind an AT screen?
