Dear Wayne: Your 4 Pi crossover just arrive and I would like to ask you a question maybe a silly question- about the piece of aluminium off board. Is it R3? And what is it for? Is it optional? Do I have to connect it to the PCB? What to do with it and how to place it in the box? I'm planning to build 4 Pi JBL and B&C drivers. Sorry for the novice question.

Thank You very much

Santos
