DJ Dave wrote on Wed, 05 October 2011 06:54I used to like an alternative station, but they have turned into more heavy metal. I prefer variety. So now, I just ride around in my car with the "search" feature going, and just stop it whenever I hear a song I like.

A similar thing happened to me, so now I only occasionally listen to a couple stations that I used to like much more. I also browse stations in the car, mostly to try to find a good new song I haven't heard. Every once in a while I'll catch one that I missed, so that's always fun.
