We have been through 3 or 4 little miniautture boom boxes in the last two years so my hubby bought us a Ryobi re-chargable radio. The one we got cost \$140, but we can hook up the Mp3 player to it and it charges the Mp3 player and the Ryobi battery. The batteries are the interchangeable kind that you can put in the drills, saws, and flashlights too. We have only had it a week or two but it gets 5 stars in my book!
