I ran a search on Ebay for a "suitcase record player" and it pulled up 25 matches. The least expensive one was a Vornado, with bidding starting at \$9.99. There were two tied for most expensive, one was a Zenith and the other was a Pyle, both at \$199. There was even one that was brand new - a Crosley model for \$133. So, if you're still in the market for one, it looks like there are plenty out there!
