Equinom wrote on Thu, 29 March 2012 16:39 How much are you willing to pay for a wireless surround system set up? They appear to be more expensive than the original surround system set ups.

What kind of price difference have you seen between wireless and wired setups? How much is the least expensive wireless setup you've seen?

I was really hoping to see some solid recommendations on this one, as we are in the market for a wireless setup as well. I hate wires!!
