Has anyone else been invited to join the Google panel? The program is called Screenwise and basically they want to put a tracking device of sorts on your computer and tv to help them advertise to you better. They offer you a $100 to sign up and then you get at least $30 for each month you participate. I don't think we are going to participate. If you get an invitation and you don't want to join open the envelope anyway...there was $5 in there!
