Hi,

I've been reading up on the Econowave speakers and found ya. I'm looking over plans on some speakers... Basically looking at building some Crites Klipsch builds VS the 4 Pi.

I have a nice subwoofer I built with a 12" Morel Ultimate sub driver so I'm leaning towards the 4 pi... Still not sure. Can I get a copy of the plans on the speaker cabinet as well as the crossover schematic?

Thanks,
Andy
