I recently did some Christmas shopping at Amazon. I noticed again that sometimes used items come up for very little money... I'm talking ONE cent. I ordered some one cent movies. Sure they're used, and the shipping is \$2.59 for a DVD, but that's still just \$2.60... does anyone else do this? That's just the lowest, of course. I like picking those that are in best shape... like I passed up a 1 cent "used: acceptable" for a 67 cent "used: excellent"
