An M-80?

Naaah, the way you do that is you braid the fuses of 4 M-80s together. You don't want the job half done, do you?
I forgot we were discussing audio, overkill is the rule.

Like NWCgrad, I like the way you think.
It helps to have a Dad who brings 10 year old Bill a Case, as in 144, M-80s. Sure, it was nuts and there were very few mailboxes left standing Halloween morning, in, hmmmm, 1957. Somehow my frends and I didn't get in trouble but it was close because it didn't stop at mailboxes....anyone remember Milk Chutes?
