Garland!

Yes indeedy, although you didn't *help* build 'em; you BUILT 'em, period!

I'm sorry I missed your emails. I never intended to not stay in touch.

I've run into Bob Bean at a couple of audio shows in the intervening years. Small world department. Is there any sort of DIY group still functioning/meeting in these parts? I have a Bot tape pre-amp (built) and the battery powered pre-amp (not built).

Do you still have your Pi (4? 3?)
