Subject: Re: 4 pi with alternate compression drivers Posted by tom-m on Sun, 24 Jun 2012 21:03:00 GMT View Forum Message <> Reply to Message

I was noticing on the 3pi crossover, that when connecting the compression driver, the polarity is opposite depending if using the B&C or Eminence. If one did use the Radian 475 as mentioned above, how would it connect in the 3pi?

Thanks.
