I always liked Tom Cruise. Some say he's gay but I never get that vibe. Maybe my "Gay-dar" is off. You can always tell the flamers, but if they're in the closet, who knows, I suppose.

I used to think his wife Katie Holmes was kinda plain. But after seeing her play the role of Jacqueline Kennedy in the series, "The Kennedys", I think she's smokin' hot. She just has to wear the right fashions for her face and figure.
