Hi, Bruce,

Thank you very much for your advice.

I think I will go for the Pro-Ject turntable.

I have a few options in mind for the converter. These are the following:

http://www.thomann.de/gb/american_audio_genie_pro.htm
http://www.thomann.de/gb/esi_phonorama.htm
http://www.amazon.com/Behringer-UFO202-U-phono-Audio-Interface/dp/B002GHBYZ0
http://www.amazon.com/Roland-UA-11-Duo-Capture-Audio-Interface/dp/B004KCNJPW

I don't mind spending up to £100 if it means a big difference in quality. I would be very grateful for any recommendations on this.

Thank you in advance.

Wishes.

Rich.
