Subject: Re: Telephone Voice vs. In Person Posted by Rockhaven on Mon, 06 Aug 2012 16:47:25 GMT View Forum Message <> Reply to Message

Yes, I have. Though, I must say that most people have a different talking voice on the telephone than in person anyways. I know that I definitely sound different on the telephone rather than in person, and it is usually intentional. As for mechanics, perhaps it has to do with the quality of the phone and the receiver?
