Ahh, ok.

I have the JBL 2226H, B&C 250 and the Eminence horns and have been planning to build the 4 pi. These will be sitting in the front corners of a room....

I do have 2 subwoofers so that is in the thought process. I could use theses with the 4 PI and 7 PI. I have a big room.

I was starting to think about just going for the full on 7PI instead of the 4PI. I read a post where a guy had done both the 4PI and 7PI and he liked the 7PI better.

Can I get the plans for the 7PI?
