Subject: Re: 2 Pi or 2 Pi Tower? Posted by Jump on Mon, 10 Sep 2012 16:19:54 GMT View Forum Message <> Reply to Message

Hi Justphil, thanks for reply.

Normally I prefer Tower against bookshelf, and I have no problem of WAF or space, so I think I'll go for 2P Tower.

Hi Wayne, I am not able to find the Vifa DX25TG05-04 used in your design, I'm finding his replacement Vifa DX25TG-09/04 ... is it the same?

AudioRoundTable.com

Another question... have the 2P Tower a good punch? I love listening the music with my ears... but also with my body!

And what about the amplifier... is it better valve or solid state?

Thanks in advance.
