Subject: Re: Six Pi Review Posted by petew on Fri, 21 Sep 2012 20:06:35 GMT View Forum Message <> Reply to Message

My room is about 17' wide. The money seat (center of three seats in the first row) about 12' back. The back row is at about 17'. Overall room depth is 26'.

I'm thinking about using the eminence driver with a possible future upgrade to the AE unit. I understand that the xover is the same either way.

Thanks again for the feedback.
