Take a look at the Logitech H250. I picked this up for $20 at Best Buy last month. The quality is really good and if you enjoy playing games online, this headset is a cheap option that works. The headset feels great and has adequate padding to keep your ears comfortable at all times. It does have the 3.5 mm input, but that shouldn't be an issue.

Search the Internet and you might even be able to find it cheaper than what Best Buy sells it for!
