Subject: Re: Audio in a Convertible Posted by audiot3ch on Tue, 23 Oct 2012 16:47:54 GMT View Forum Message <> Reply to Message

My first car was a 1996 Sebring convertible. I know the feeling of not being able to hear the music in the wind. If the top was on, the music was good and the bass was just right. All of that goes out the window when the top goes down.
