Did you find the model?

I have one almost same as yours (look the picture) and I dont know the model.

It was a gift from a 90 years old friend.

It works well, but I would like to have schematic drawing.

It uses 6SQ7, 6SK7, 6J5, 6L6, 6K8, 6SJ7 and 5Y3.

If you do have some information, please let me know.

Thanks
