The Noise wrote on Sat, 08 December 2012 00:33 Believe it or not my ex-wife is asking for an electric wire to string over the brick wall around her yard. Her dogs keep jumping the fence and she wants a deterrent strung up.

Does that really work? I have heard that with some bigger dogs they will just go ahead and jump anyway. We finally got our yard fenced in with chainlink so I don't have to worry anymore.
