Subject: Re: skywave's 3Pi subwoofer build Posted by Wayne Parham on Sat, 15 Dec 2012 22:39:10 GMT View Forum Message <> Reply to Message

Flanking subs are stereo pairs, one for each main. So you really want them to be matched, e.g. a

would be worried that the balance would be off.

More distant subs don't have to be matched though. For the distributed multisubs, you can run the same model as the flanking subs, but they don't have to be.
